Mr. Richard P. Watson, P.E., BCEE
Chief Operating Officer
Delaware Solid Waste Authority
1128 S. Bradford Street, P.O. Box 455
Dover, DE 19903-0455

Subject: Request for Additional Information/Permit Renewal Application
Reference: Milford Transfer Station (DSWA), File Code: SW-02.D

Dear Mr. Vescovi:

The Department of Natural Resources and Environmental Control, Solid and Hazardous Waste Management Section (SHWMS) has reviewed the Delaware Solid Waste Authority's (DSWA) renewal application for the above referenced permit. The SHWMS requests the following additional information for a complete review of the application. Please provide **3 copies** each (including digital media) of the following information:

1. Checklist Item #13 (Conceptual Closure Plan):
 - a. Please explain in further detail the conceptual closure plan items in section "a" of the closure plan, as required in 7 Del. Admin Code Section 10.6.3, including detailed descriptions of the items that will be performed upon the cessation of operations.
 - b. Please also provide in section "b" of the closure plan, updated closure cost estimates for closure activities of the facility. The currently listed cost estimates for closure activities indicate little to no change from the 2008 closure cost estimates submitted with the original facility application.

Delaware's good nature depends on you!

If you have any questions, or would like to schedule a meeting to further discuss the required information or the facility application, please contact David Perrego of the SHWMS at (302) 739-9403.

Sincerely,

Nancy C. Marker
Environmental Program Administrator
Solid & Hazardous Waste Management Section
